
STATE GOAL 13

Energy Conservation

STATE GOAL 13—ENERGY CONSERVATION

To conserve energy. OAR 660-015-0000 (13)

CITY GOAL 13.1

The City shall conserve energy.

- Policy 13.1.1** New development and landscaping shall not interfere with the free use of sunlight.
- Policy 13.1.2** To promote energy conversation through design standards.
- Policy 13.1.2.1** Land division shall provide optimum orientation for the use of solar devices.
- Policy 13.1.3** Land division techniques shall take into consideration conservation of energy.
- Policy 13.1.4** Promote the use of renewable energy resources.
- Policy 13.1.5** Implement and enforce state energy codes through the building permit review process.
- Policy 13.1.6** The City shall encourage the use of recycling programs.
- Policy 13.1.7** In the remodeling or construction of public buildings, the City shall participate in all available appropriate technology programs.
- Policy 13.1.8** Promote energy efficiency through site planning for all types of development including residential subdivisions, multi-family, commercial and industrial projects.
- Policy 13.1.9** Require energy-efficient land use and circulation patterns through mixed-use development.
